FINAL PLANNING MEETING

AGENDA

- **Opening Remarks**
- **TNMAN/TNCAT 26**
  - Exercise Overview
  - Joint Event Life Cycle
  - TNNG - Exercise Objectives
  - TEMA - Exercise Objectives
  - Scenario Overview - Initiating Incident
  - Scenario Overview with Locations
  - Scenario Timeline
- **Final Planning Meeting Timeline & Objectives**
  - Goals
  - Due Outs
  - Working Groups and TEAMs WG Call Assignments
  - Examples (Inject Requests and Concept Slides)
- **QUESTIONS**
- **LEAD PLANNER CONTACT INFO**

Opening Remarks

MAJ Callison/Ryan Schwartz

Exercise & Scenario Overview

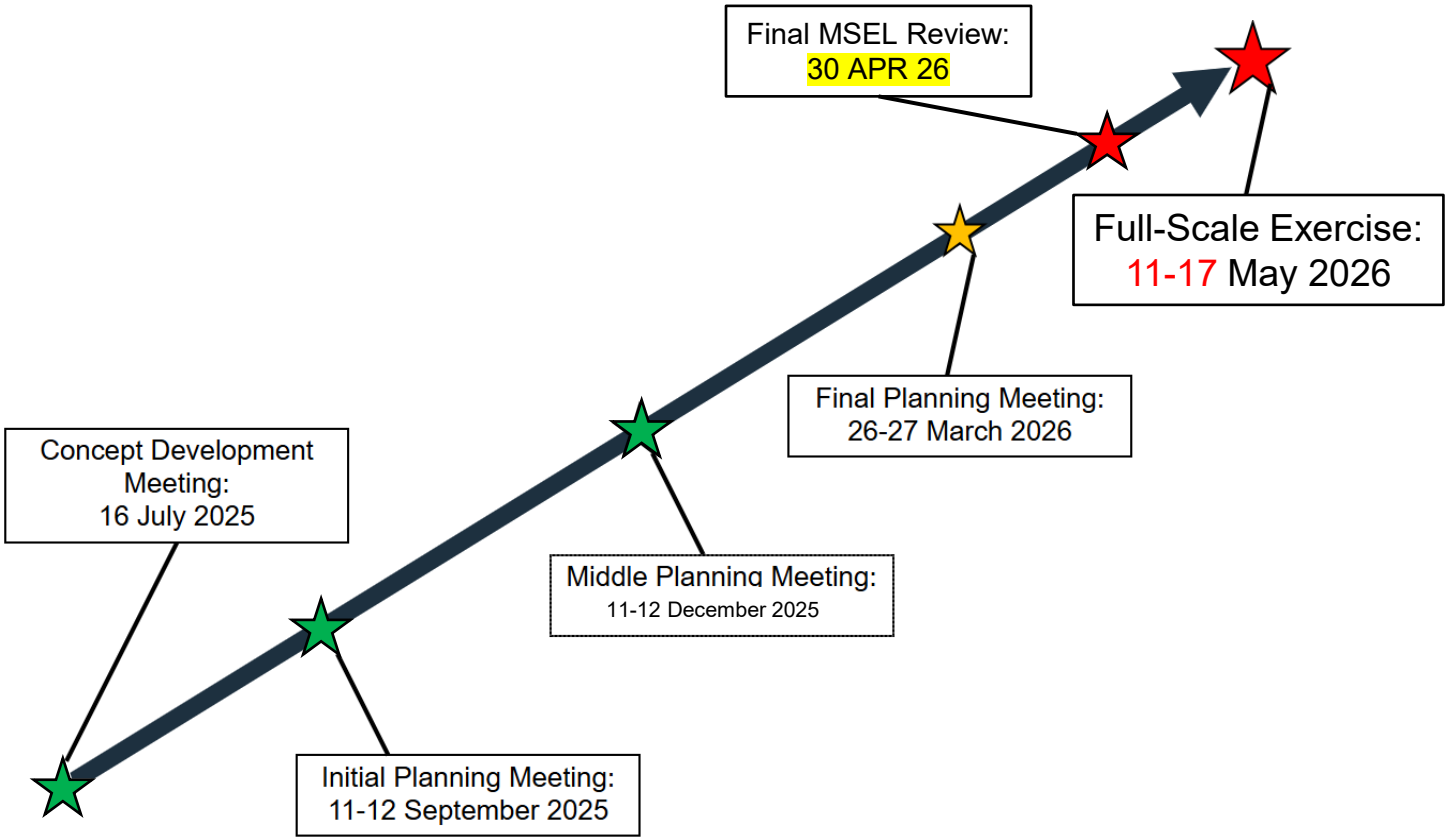
Current state following Middle Planning Meeting (MPM)

Exercise Overview

- Tennessee Maneuvers (TNMAN) and Tennessee Catastrophic Exercise (TNCAT) are full-scale domestic response exercises planned by the Tennessee National Guard and the Tennessee Emergency Management Agency (TEMA). They provides an opportunity for local, state, and federal agencies, National Guard units, and private sector partners to improve emergency response plans, inter-agency relationships, and interoperability.

- **TNMAN / TNCAT 26** is an operations-based functional exercise featuring limited field play, distributed EOC activations, and remote coordination. It provides a realistic environment to test and improve operations during simultaneous natural hazards and complex threat scenarios. The exercise addresses multi-day flooding across Northeast Tennessee combined with cyber and kinetic attacks on critical facilities, requiring integrated response among state, local, and military partners.

Joint Event Life Cycle (JELC)



Proposed Monthly IPRs

JUL	AUG	SEP	OCT	NOV	DEC	JAN	FEB	MAR	APR	MAY
CDM		IPM	IPM		MPM			FPM		★
	26th			18th						

TNMAN Exercise Objectives

THE WHAT

EO 1 – Conduct Homeland Defense operations in response to ongoing attacks on the homeland.

- **TO 1** – Execute prevention measures to include operational coordination and information/intelligence sharing
- **TO 2** – Exercise cybersecurity and physical protective measures
- **TO 3** – Utilize interdiction and disruption for both prevention and protection of cyber and kinetic attacks
- **TO 4** – Respond to **cyber** and **kinetic** attacks
- **TO 5** – Develop plans for **Civil Support of Military Operations** (CSMO)
- **TO 6** – Exercise TNSG augmenting TNNG forces for HD purposes

EO 2 – Improve TNNG damage assessment support capabilities.

- **TO 1** – Utilize unmanned **aerial reconnaissance**
- **TO 2** – Incorporate the **Joint Bridge Assessment Team**
- **TO 3** – Respond with operational coordination and situational assessments
- **TO 4** – Provide response support with critical transportation
- **TO 5** – Provide response support with operational communications

EO 3 – Rehearse emergency communications plan.

- **TO 1** – Simulate a **communications black-out**
- TO 2 – Exercise use of TACN/LMR
- TO 3 – Exercise use of HF radio
- TO 4 – Exercise use of satellite phones
- **TO 4** – Exercise **aerial retransmission** using an aircraft system

EO 4 - Exercise the TERP (Tennessee Emergency Response Plan [All Hazards Response Plan]).

- **TO 1** – Activate and conduct the **EMAC process**
- **TO 2** – Activate **JABS** (Joint Adaptive Battle Staff) to conduct mission command activities in preparation for follow-on missions from TEMA.

THE HOW AND THE WHO

Inject: Coordinated Attack/ (Kinetic and Cyber)

- **Kinetic:** TNNG JABS, TEMA, HOLSTON, STATE GUARD, TEMA
- **Cyber:** TNNG JABS, TEMA, ORNL, UTK, STATE GUARD, AIR GUARD, ARMY GUARD

Inject: Natural Disaster (JBAT TTX and UAS Ortho-mosaic)

- **Joint Bridge Assessment Team:** TNNG Aviation, State Guard, TEMA, JABS, TDOT
- **UAS Orthomosaic Mapping:** JABS, TNNG, TEMA, TN State Parks (Scotts Gulf Wilderness, Fall Creek Falls, Bledsoe State Forest), Civil Air Patrol, *STATE GUARD?, MTSU UAS?*

Inject: Comms Blackout

- TNNG JABS/JOC, ARMY GUARD, AIR GUARD, TEMA, TNNG AVIATION (RETRANS?)

Inject: Natural Disaster (Activate JABS & EMAC)

- TNNG JABS, TEMA, KY National Guard, Georgia National Guard, Georgia EMA, Kentucky EMA

TNCAT Exercise Objectives

Focus Area(s)	Response
Primary Capabilities	Operational Coordination, Logistics and Supply Chain Management, Operational Communications
Objectives	***SEOC Activation and Operation*** a. Staffing Assessment Objective: Within 30 minutes of SEOC activation, complete a staffing assessment and identify gaps for ESFs and functional areas. ***Resource Management*** a. EMAC Objective: Initiate EMAC mission request for support after identifying critical shortfalls. b. Resource Request Objective: Process and validate resource requests from local jurisdictions through the SEOC Mission Coordination Center (MCC). c. Resource Tracking Objective: Establish and maintain a resource tracking system to account for all deployed and requested resources (RESL) ***Operational Communications*** a. Interoperability Objective: Conduct interoperability checks between (but not limited to) SEOC, county EOCs, Guard units, TDOT, and facilities. b. Aerial Retrans Objective: Deploy aerial retransmission capability. c. PACE Objective: Activate PACE plan during simulated comms blackout.

Inject: Coordinated Attack/ (Kinetic and Cyber)

- **Kinetic:** TNNG JABS, TEMA, HOLSTON, STATE GUARD, TEMA
- **Cyber:** TNNG JABS, TEMA, ORNL, UTK, STATE GUARD, AIR GUARD, ARMY GUARD

Inject: Natural Disaster (JBAT and UAS Ortho-mosaic)

- **Joint Bridge Assessment Team:** TNNG Aviation, State Guard, TEMA, JABS, TDOT
- **UAS Orthomosaic Mapping:** JABS, TNNG, TEMA, TN State Parks (Scotts Gulf Wilderness, Fall Creek Falls, Bledsoe State Forest), Civil Air Patrol, *STATE GUARD?, MTSU UAS?*

Inject: Comms Blackout

- TNNG JABS/JOC, ARMY GUARD, AIR GUARD, TEMA, TNNG AVIATION (RETRANS?)

Inject: Natural Disaster (Activate JABS & EMAC)

- TNNG JABS, TEMA, KY National Guard, Georgia National Guard, Georgia EMA, Kentucky EMA

Scenario Overview

Early Notice *(to be published on May 4th…this is what kicks things off)*

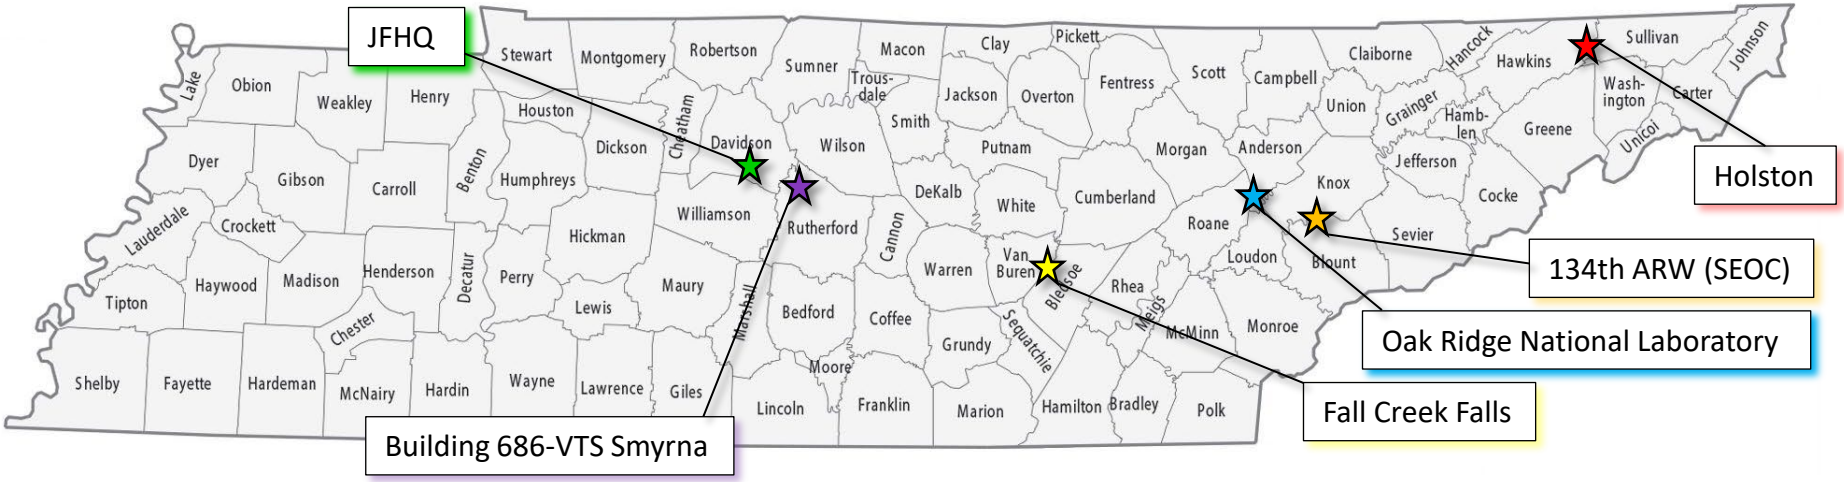
The State Emergency Operations Center (SEOC) is monitoring a developing weather system forecast to impact Tennessee beginning late this week and persisting into next week. Current model guidance indicates the potential for **multiple rounds of heavy rainfall**, **severe thunderstorms**, and **widespread flooding** from **May 9–14**. The overall pattern bears similarities to previous long-duration high-impact events, including May 2010 and August 2021.

While confidence in exact timing and rainfall totals will increase in the coming days, early projections indicate **6–10 inches of rain statewide**, with **higher localized amounts possible**, particularly in **East and Northeast Tennessee**.

Primary Hazards (Early Outlook)

- **Heavy Rainfall / Flash Flooding** – Urban and small stream flooding possible by May 9–10, transitioning to river flooding thereafter.
- **Severe Thunderstorms** – A squall line late May 9–10 may produce damaging winds and power outages.
- **Landslides** – Elevated risk in steep terrain, especially in Northeast Tennessee (Greene, Washington, Hawkins).
- **Infrastructure Impacts** – Prolonged rain may cause roadway washouts, culvert failures, and power disruptions.
- **Extended Duration Impacts** – Power restoration and access issues may persist beyond the rainfall window.

Current Scenario



MON 11 May D+0	TUE 12 May D+1	WED 13 May D+2	THU 14 May D+3	FRI 15 May D+4	SAT 16 May D+5	SUN 17 May
D+0-Severe Weather/Flooding: TEMA responds and requests TNNG assistance	**D+1-National Guard Support**: TNNG provides support with **Sustainment** and **Aerial Retrans**		**D+3-Cyber Attack:** Oak Ridge National Laboratory is simultaneously attacked, causing TNNG to use **Cyber** support to aid	**D+4 COMMS Blackout:** JFHQ is experiencing difficulty contacting downtrace components, causing the utilization of the **Emergency Communications Plan** (PACE)		
D+0-Public Safety COMMEX: TEMA, Counties, and State Partners attempt to gain COMMS with HF, Winlink, Satellite, etc (Building 686-VTS Smyrna)	**D+1-EMAC NG Support**: TEMA requests support from (KY/GA) to fill the **Engineer** requirement (D+1 through D+3) ***EMAs, JABS, no troop movement between states		**D+3-Kinetic Attack:** Holston AAP is attacked, causing TNNG to focus on **Homeland Defense**, while TEMA will fill in the capability gaps left by the TNNG. Holston requires **Security** support (D+3 through D+5)	→		
		D+2: JBAT TTX: LOCATION TBD	~~**D+3-JBAT Request from Natural Disaster:** TEMA requests **JBAT** to conduct bridge assessments (I-40 Caney Fork Bridges) (D+3 through D+4)~~			
	D+1-UAS Damage Assessment: Organizations compile images from UAS's to create a joint **orthomosaic map**. (D+1 through D+2)	→	**D+3-Air NG EOC Activation**: In response to the attacks, the TNANG activates their EOC's at each Wing location (D+3 through D+5)	→

Final Planning Meeting Objectives

Overall Meeting Goals & Outcomes

- Finalize the Exercise Concept Brief and overall exercise flow.
- Refine the Master Scenario Events List (MSEL) – 90-95% solution.
- Solidify all logistics, funding, and ground truth documents.
- Finalize requirements for Distinguished Visitor Day.
- Make key decisions on external support, including the EMAC plan with Georgia and Kentucky.
- Tennessee Public Safety Interoperability Workshop Implementation
- Confirm all aviation requirements.
- Confirm Tennessee National Guard and Air National Guard participation and capabilities.
- Confirm all local, state, and agency participation and capabilities.
- Identify all shortfalls.

Meeting Goals/Due Outs

Working Groups

- Finalize Concept of Development Slides by 1300 Friday (Overview Slide, Basic Scenario, Assumptions & Background Conditions, Deliverables)
  - Finalize and submit their unit/organization specific objectives.
    - Submit any final inject requests for the MSEL.
  - Provide a final list of all players (units/orgs/agencies).
  - Identify and report any shortfalls in personnel, logistics, locations, etc.
  - Submit any remaining Requests for Information (RFIs) or Requests for Support (RFSs).
- Brief Concept of Development Slides Friday after Lunch

Exercise Planners (J3/TEMA)

- Incorporate all working group feedback to finalize the master Exercise Concept Brief.
- Deconflict and integrate all injects into the final MSEL (90-95%).
- Finalize all Ground Truth documents.
- Based on working group input, finalize and communicate the overall logistics and funding plan.
- Solidify and BPT publish Tennessee Public Safety Interoperability Workshop information.
- Confirm and communicate the TNNG's aerial retransmission capabilities for possible incorporation.
- Finalize and share the EMAC plan with all relevant parties.
- Provide a final field budget estimate.
- Coordinate and publish the plan for Distinguished Visitor Day.

Working Groups

Working Group	Projected Days During Exercise	Lead POC/Org	Players/REPs Required	JFHQ Room Location	TEAMS Call Breakout Room
JBAT – ****TTX Only***	Wed – 13 May	? TDOT/State Guard	State Guard, TDOT, TEMA, Aviation?		**Breakout Room 1:** Join the meeting now
UAS Ortho-mosaic Mapping	Mon-Wed 11-13 May	CPT Travis Robinson	G6 JISCC, State Guard (?), J3, State Parks, TNNG, CAP		**Breakout Room 2:** Join the meeting now
Cyber Attack	Thu-Sat May 14-16		ORNL, UTK, ARNG/ANG JISCCs, State Guard, TEMA		**Breakout Room 3:** Join the meeting now
Natural Disaster/EMAC	Mon-Fri 11-15 May/ EMAC 12-13		TEMA, J3, KYNG, GANG, GEMA		**Breakout Room 4:** Join the meeting now
Comms Blackout/ANG EOC Activation	Fri – 15 MAY		ANG, J3, TEMA, State Guard		**Breakout Room 5:** Join the meeting now
Comms Interoperability? /Aerial Retrans	Mon-Wed 11-13 May		Aviation		
Homeland Defense (TTX & Security)	Thu-Sat May 14-16	MAJ Trint Callison	Holston, J3, State Guard		**TNMAN26 FPM MAIN ROOM** Join the meeting now

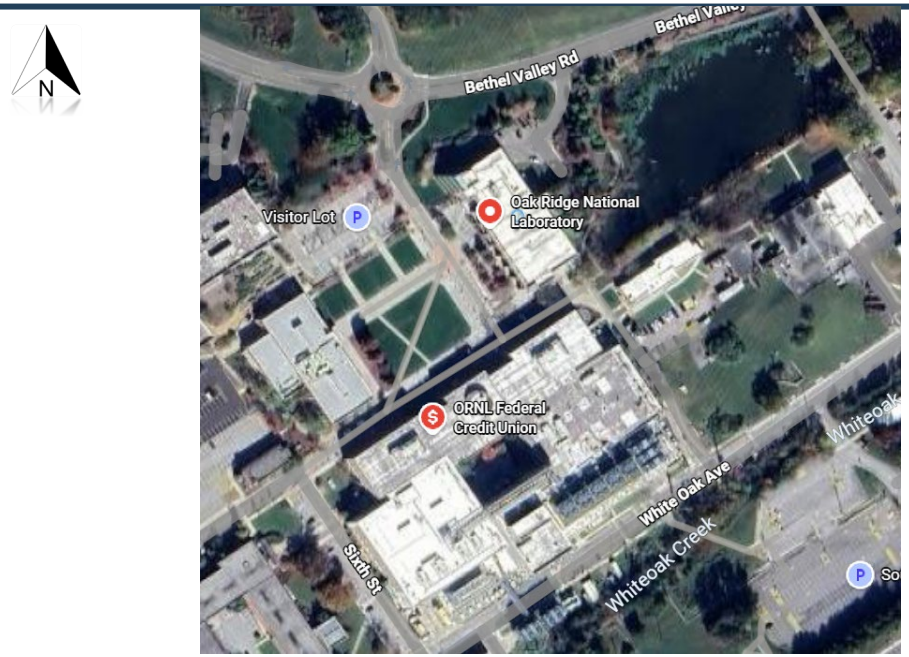
Cyber WG

Scenario:
Cyber event targeting eagle-i.doe.gov impacts TEMA operations. During incident response, UTK is discovered to be a secondary target.

Triggers/Artificialities/Simulation:

Participants	Onsite	Remote
ORNL Cyber Division	10	0
Eagle-I Sys admins	3	0
TEMA	1	1
UTK	0	1
TN Guard	5	5
State Guard	3	2

Objectives:
1 - Coms between ORNL and TEMA surrounding Eagle-I outage.
2 - LMR interop exercise/radio checks for communication outage.
3 – State EOC intel sharing with UTK of IOCs/TTPs.
4 - IR tabletop exercise with ORNL/UTK.



Timeline: 14May2026

See slide "TNMAN 2026 Basic Scenario"

POC & Location Information:

ORNL – Matt Lindsey (404) 245 – 1123, lindseymg@ornl.gov, ORNL SOC w/ Teams Link
UTK – Brian Gard (865) 974 – 9347, bgard1@utk.edu, UTK EOC joined via Teams Link
TEMA – David West (865) 719 – 2233, David.l.west@tn.gov, ORNL SOC
ARNG – CW4 Richard Allen, (615) 478-1159, richard.d.allen56.mil@army.mil
State Guard – CW4 Michael Simpson, (615) 243 – 4703, michael.simpson@tnstateguard.org

Logistics & Resources:
Food/Water: Provided per individual units
Lodging: Provided per individual units
Role Players: Documented in Participants Section.
Comms: Subject to TNNG: ***P:*** ; ***A:*** ; ***C:*** ; ***E:***
Admin: Provided per individual units.
Medical: Provided per individual units.

TNMAN 2026 Basic Scenario

- **Starting Scenario** – ORNL Eagle-I service is targeted by a cyber attack.
  - 0800 EST, Eagle-I system admins notice strange activity, and report to ORNL DCO of a potential cyber event.
  - 0830 EST, ORNL DCO formally declares an incident.
  - 0930 EST, TEMA is notified of derogated service to Eagle-I.
  - 0945 EST, known IOCs are shared to state EOC.
  - 1000 EST, UTK staff detects suspicious activity matching IOCs provided by ORNL.
  - 1030 EST, UTK IMT/EOC responds to cyber attack and impacts of campus wide infrastructure outage. – UTK/ORNL attempts to determine joint staff list.
  - 1130 EST, ORNL localized cell tower outage. TEMA notified via VoIP/email.
  - 1140 EST, Eagle-I goes down entirely. TEMA is notified of Eagle-I outage.
  - 1200 EST, ORNL requests radios from onsite EOC and coordinates channels with TEMA.
  - 1205 EST, ORNL is offered training awareness kit (TAK) to coordinate response.
  - 1215 EST, runner sent to pickup radios arrive.
  - 1245 EST, ORNL achieves eradication and containment of cyber event.
  - 1300 EST, Eagle-I service is partially restored.
  - 1400 EST, UTK reports partially restored continuity of operations.
- **Injects**
  - 1 – Eagle-I goes down entirely
  - 2 – After ORNL provides IOCs, UTK detects suspicious activity on their network.
  - 3 – Localized cell tower outage, ORNL EOC brings out radios.

Assumptions and Background Conditions

- Outside of the scope of this scenario itself, but we are assuming that federal communications are restored via ECN.
- We will be simulating IJC3, FBI, and ORNL communications on ORNL's side.
- ORNL will schedule a training session of team awareness kits (TAK) @CW4 Simpson.
- Once notified, UTK will follow their own response plan and generate their own injects for the remainder of the exercise.
- ORNL radios are initially only locally effective.

Deliverables

- ORNL – Sharpen technical details with Eagle-I admins for tabletop cyber event.
- UTK – Bring internal MSEL with internal cyber response actions.
- TEMA – Review plans/procedures with lead on how communications and resources will work between ORNL, UTK, etc.
- TN/State Guard – Planning session for participation in this event.

Inject Examples

- What do you want your players to deal with?
- **5 W's**
  - -Who
  - -What
  - -When
  - -Where
  - -Why
- Expected Player Action/Follow-on Injects
- Measure of Performance/Effectiveness
  - Performance:
- Delivery Method
- Realism

4. J1 – Credentialing Failure at HSAAP

Day/Time: D+1 @ 1000

Description: Federal security denies entry to 8 Soldiers whose badges cannot be validated.

Delivery Method: In-person security report + call from HSAAP

Expected Player Action: J1 must correct credentials and coordinate entry approval.

MOE (Measure of Effectiveness): Whether the soldier's credentials can be verified

MOP (Measure of Performance): Integration with federal partners and how quickly

Follow-on Injects: Triggers J1 Inject 5

5. J1 – Augmentation Shortfall

Day/Time: D+2 @ 1400

Description: TEMA requests 40 personnel; only 18 are available.

Delivery Method: Tasking request from SEOC

Expected Player Action: J1 must reprioritize and recommend sourcing solutions.

MOE (Measure of Effectiveness): Manpower allocation accuracy/prioritization

MOP (Measure of Performance): Speed of action/how quick they can fill the gap

Follow-on Injects: None

6. J2 – Conflicting Attack Attribution

Day/Time: D-1 @ 1500

Description: Two intel reports disagree—one blames foreign actors, the other domestic extremists.

Delivery Method: Intelligence portal + email

Expected Player Action: J2 must reconcile the picture and brief J3.

MOE (Measure of Effectiveness): Accuracy of threat detection/threat analysis

MOP (Measure of Performance): Speed of access to resources and knowledge of personnel

Follow-on Injects: Triggers J2 Inject 7
